

Making Change in B.C.

How to change your W.I.S.H.™ Statistical Formulas to be able to report to M.P.S.S.G. in British Columbia.

[Revised July 2021 – added Victim Services section(s)]

This document is published by Grasp Software Corporation for the sole benefit of agencies licensed to use **W.I.S.H.**[™] (Women In Safe Housing®) Software. It is intended to provide guidance on how you could set up coding in **W.I.S.H.**[™] to collect the statistics asked by M.P.S.S.G. in the province of B.C., and dovetails with the set of demonstration data provided for that province in version 2021.01f of the software. The update provided in July 2021 includes the CBVS data which was added to the software release **after** version 2021.02c.

The demo data is intended to provide a guide for how you can set up your WISH if you answer to this funder in BC.

It was written in June 2021. An update was provided in July 2021 to add the coding for CBVS as well as to correct incorrect details in Appendix A.

Direct any questions or comments in writing to support@grasp.ca

Changes

[updated July 2021]

In June 2021, we were informed of changes made by Ministry of Public Safety and Solicitor General (MPSSG) in British Columbia. In general, MPSSG funds 5 programs that are often represented and reported on through **W.I.S.H.™ (Women In Safe Housing®)**.

- Stopping The Violence
- P.E.A.C.E. (formerly known as Children Who Witness Abuse)
- Outreach Counselling
- Multicultural Outreach Counselling
- Community Based Victim Services (added after build 2021.02c)

In the active demo of the **W.I.S.H.™** software, historically, we included both the “Stopping The Violence” and the “P.E.A.C.E.” program as examples of how you could set up these programs in **W.I.S.H.™**. The Community Based Victim Services, Outreach Counselling and Multicultural Outreach Counselling never made it into our demo, but many of you have already set that up in **W.I.S.H.™**. All of these now exist in the BC Demonstration set of data after build 2021.02c.

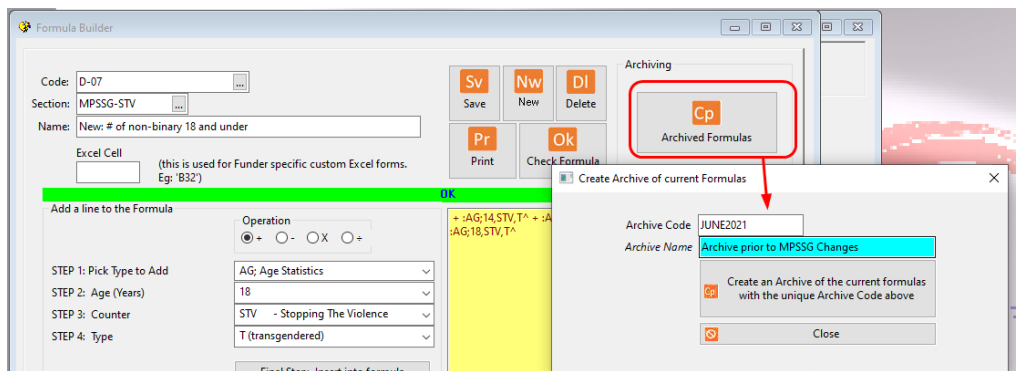

From time to time, funders (such as MPSSG) may change what they ask you to report in exchange for funding these programs at your agency, and this is what occurred sometime around June 2021. As usual, we are never given any forewarning or even looped in, and often find out simply because one of our **W.I.S.H.™** users reaches out with a list of the changes and a conversation that may start like this: “Have you seen the changes....” Anyway, we thank very much the people who reach out to us and share the details of these changes. Doing so makes it easier for us to serve you in the use of our product, and in turn this comes back to all of those who use **W.I.S.H.™**.

Archiving Formulas

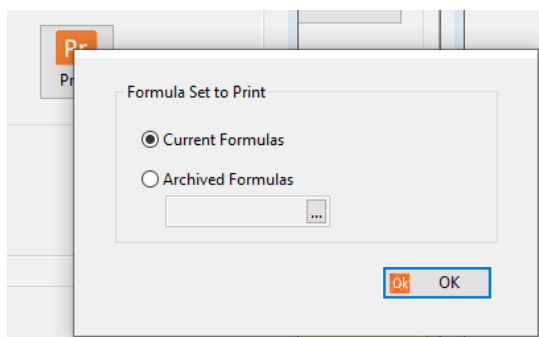

Before you decide to make any formula changes (especially broad changes like the ones required to be compliant with the new stats requested by MPSSG, you should ALWAYS create an “Archive” of your existing Formulas. Archives are useful for two reasons:

- You can print past statistics based on historical archived formulas, and
- If you make an error, or want to refer back to the way something used to be calculated, that information survives and exists in the Archived Formulas.

It is easy to create an Archive of existing formulas. From the **Formula Builder** screen, click on the **Archived Formulas** button and fill out the pop up screen to create a unique Archive Code and Description. Then click on the “**Create an Archive ...**” button.

That’s it. Your Archive has been created. Now, whenever you print stats by formulas, you can always select to print using Archived formulas over the default of Current formulas.

Stopping The Violence

As with these 4 funded programs, the changes that were shared with us in June 2021 showed a significant shift in what sort of detail was now being requested. The data for each program, including Stopping The Violence, is now grouped into 8 groups:

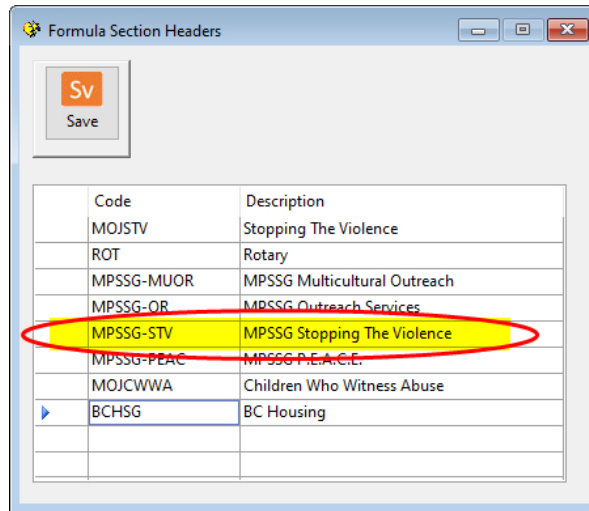

- A. Caseload Information
- B. Community Coordination
- C. Community Engagement
- D. New Client Information
- E. Referral Information
- F. Services Provided
- G. Staffing Information
- H. Training Information

[Creating a New Section Header](#)

All in all, the new format is nicely organized and easy to follow. To track this in the B.C. demo in **W.I.S.H.**TM, I decided to create a new **Formula Section Header**

In that screen, I created a new Formula Section Header: **MPSSG-STV**.

Creating New Formulas

I also chose to organize the 8 groupings into similar groupings in the Formula Builder. (A through H). So In the Formula Builder:

I ended up creating the following list of blank Formulas (by the way, if you like this I have a utility that will import them all rather than you having to type them all in... get in touch with me if you want me to import these codes):

Section Code Name/Description

- MPSSG-STV **A-01** Caseload Info: # of new clients
- MPSSG-STV **A-02** Caseload Info: # of contacts made with clients
- MPSSG-STV **A-03** Caseload Info: Active caseload
- MPSSG-STV **A-04** Caseload Info: Kms travelled to provide services to clients
- MPSSG-STV **A-05** Caseload Info: # of individuals on waitlist
- MPSSG-STV **A-06** Caseload Info: Aver days clients served this mth on W-List

- MPSSG-STV **B-01** Comm. Coord: Hrs in VAWIR Committee work
- MPSSG-STV **B-02** Comm. Coord: Hrs spent on SART
- MPSSG-STV **B-03** Comm. Coord: Hrs spent on ICAT
- MPSSG-STV **B-04** Comm. Coord: Hrs spent on comm. coord. activities

MPSSG-STV **B-05** Comm. Coord.: Kms travelled for Comm. Coord. this month

MPSSG-STV **B-06** Comm. Coord: Anything else to highlight this mth.

MPSSG-STV **C-01** Comm. Engagemt: Hrs spent attending events

MPSSG-STV **C-02** Comm. Engagemt: Hrs spent providing info/pres/comm ed.

MPSSG-STV **C-03** Comm. Engagemt: Hrs spen on other comm. engagemt activities

MPSSG-STV **C-04** Comm. Engagemt: Is there anything else to highlight

MPSSG-STV **D-01** New: # of males

MPSSG-STV **D-02** New: # of females

MPSSG-STV **D-03** New: # of non-binary

MPSSG-STV **D-04** New: Gender unknown

MPSSG-STV **D-05** New: # of males 18 and under

MPSSG-STV **D-06** New: # of females 18 and under

MPSSG-STV **D-07** New: # of non-binary 18 and under

MPSSG-STV **E-01** Referrals from: Police Based Victim Services

MPSSG-STV **E-02** Referrals from: CVAP

MPSSG-STV **E-03** Referrals from: VictimLink BC

MPSSG-STV **E-04** Referrals from: Comm. Based Victim Services

MPSSG-STV **E-05** Referrals from: Victim Safety Unit

MPSSG-STV **E-06** Referrals from: Crown Counsel or Victim Court Support

MPSSG-STV **E-07** Referrals from: Transition houses or safe homes

MPSSG-STV **E-08** Referrals from: PEACE

MPSSG-STV **E-09** Referrals from: Stopping The Violence Outreach Services

MPSSG-STV **E-10** Referrals from: All other referrals

MPSSG-STV **F-01** Services Prov: # Individual Couns. Sessions

MPSSG-STV **F-02** Services Prov: # Group Counselling Sessions

MPSSG-STV **F-03** Services Prov: Clients assisted with CVAP Forms

MPSSG-STV **F-04** Services Prov: Clients assisted with Restitution Forms

MPSSG-STV **F-05** Services Prov: Clients assisted w Victim Safety Unit forms

MPSSG-STV **F-06** Services Prov: # clients assisted w Safety Planning

MPSSG-STV **F-07** Services Prov: # assists with 3rd party reports/forms

MPSSG-STV **F-08** Services Prov: Ref to/Info about Police Based Victim Service

MPSSG-STV **F-09** Services Prov: Ref To/Info re Comm Based Victim Services

MPSSG-STV F-10	Services Prov: Ref To/Info re alcohol/drug treatment
MPSSG-STV F-11	Services Prov: Ref To/Info re mental health services
MPSSG-STV F-12	Services Prov: Ref To/Info re Victim Safety Unit
MPSSG-STV F-13	Services Prov: Ref To/Info re Trans. Houses/Safe Homes
MPSSG-STV F-14	Services Prov: Ref to/Info Other types
MPSSG-STV F-15	Services Prov: List Other types
MPSSG-STV G-01	Staffing: Is the program fully staffed
MPSSG-STV G-02	Staffing: Has the program been understaffed for 30+ days
MPSSG-STV G-03	"Staffing: If understaff for 30+ days, why?"
MPSSG-STV G-04	Staffing: Has there been any staff changes to the program
MPSSG-STV G-05	Staffing: Explanation for changes
MPSSG-STV G-06	Staffing: Staff Hours worked this month
MPSSG-STV G-07	Staffing: Is there anything to highlight
MPSSG-STV H-01	Training: # staff receiving training
MPSSG-STV H-02	Training: List training received
MPSSG-STV H-03	Training: Hrs of staff training
MPSSG-STV H-04	Training: Anything to highlight?

[Adding New Codes to W.I.S.H.](#)

As I was doing this in the B.C. Demo set of data for **W.I.S.H.**[™], some codes already existing, and some codes would need to be added to be compliant.

[Existing Registered Program Codes](#)

In the B.C. demo there were already 3 Registered Programs set up for the Stopping The Violence (STV) program.

- **STV**
- **STV-WL**
- **STV-WLG**

The latter two were strictly for tracking Waitlists. In any event, insofar as the B.C. demo set of data was concerned. There was no need to change or add any Registered Program Codes.

Existing Time Log Codes

The B.C. demo data already had a pretty healthy selection of Time Log Codes that were set up:

- **STVCC** -Case Consult
- **STVCCT** -Case Consult Travel Time
- **STVCE** -Community Education
- **STVCEP** -Community Education Prep-time
- **STVCET** -Community Education Travel Time
- **STVCPG** -Coping Session (intended for use for a client not yet in the program but in dire need of immediate service)
- **STVDS** -Direct Service w Client (i.e. one-on-one)
- **STVINT** -Intake
- **STVPRE** -Pre/Post Service (intended for use when brief service is delivered to a client who has not yet been intaked into the program, or has left the program... for example, a quick follow up with the client after their file has been closed.)

For the purposes of meeting the new criteria, we found that we were OK to leave these codes untouched, although we could have gotten rid of some codes such as the overlap between **STVCPG** and **STVPRE**, but otherwise we decided to leave these codes untouched.

New Time Log Codes

In the new sets of statistics requested by MPSSG, there are several questions regarding work done on various provincial committees, and to be able to track that activity we had to add 4 new Time Log Codes. In addition, there was a question in section “H” of the new stats that request details on staff training. While most of that last section were asking details not tracked at all in **W.I.S.H.**TM, we decided that we could easily track the “hours” that staff were engage in training which led us to adding a fifth code. Each of these codes where added with the option of “**No Client**” selected as these were intended to be put on the STM’s Time Log sheet without being connected to a specific client. The following Time Log Codes were added:

- **STV-C1** - STV VAWIR Committee work
- **STV-C2** -STV SART Work
- **STV-C3** -STV ICAT Work

- **STV-C4** -STV Other Comm. Coordination Work
- **STV-TR** -Training for STV Staff

SHSP	Shelter-Safety Planning	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None
STV-C1	STV VAWIR Committee work	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None
STV-C2	STV SART Work	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None
STV-C3	STV ICAT Work	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None
STV-C4	STV Other Comm. Coordination Work	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None
STV-TR	Training for STV Staff	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None
STVCC	STV- Case Consult	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None

Tracking Age and Gender

One of the significant changes to all of the MPSSG stats (including STV) is around both Age and Gender. Section “D” of the stats want to know details on both Age and Gender of the Clients accessing Service. In **W.I.S.H.**TM the “Gender Selector” choices are:

- Female
- Male
- Transgendered

MPSSG is requesting Gender be reported as:

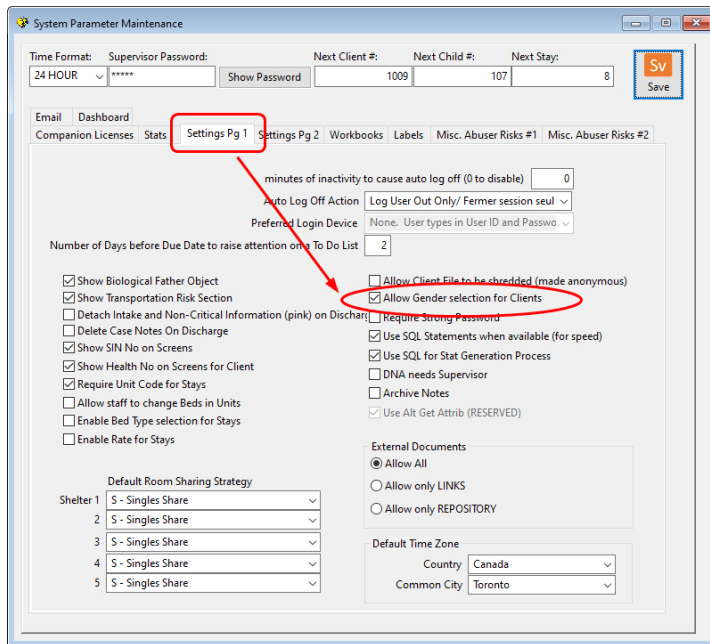

- Female
- Male
- Non-binary

If you can overlook the mismatch of the words “Transgendered” and “Non-binary”, the current Gender Selector works well for the MPSSG model. (SIDEBAR NOTE: Shortly – likely early next year – you will be given more flexibility with modifying the Gender choices in **W.I.S.H.**TM). Furthermore, **W.I.S.H.**TM already compiles Age by Gender statistics, so using the current Gender selector in **W.I.S.H.**TM delivers a double-bonus.

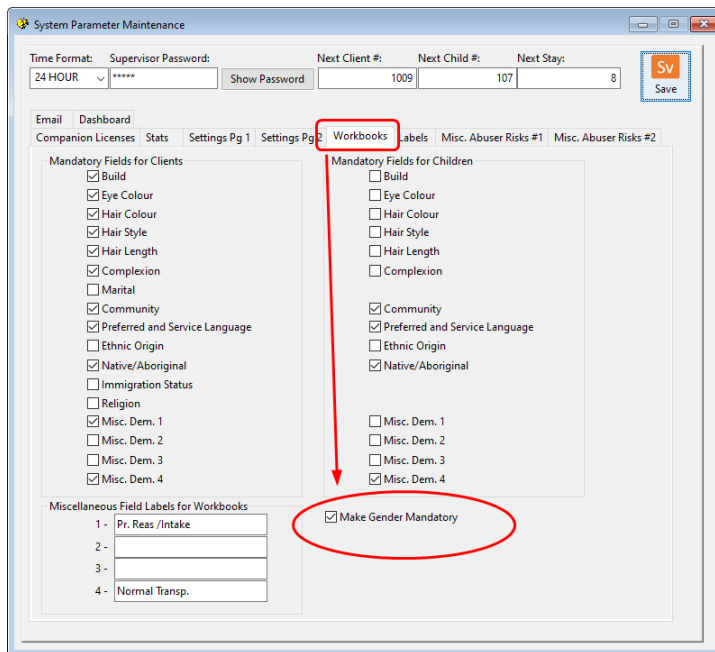

To consider using the Gender Selector in the B.C. Demo Data, we made two changes. Both changes were found in the **.Admin Functions.System Parameters** screen.

First, we wanted to make certain that the “Gender Selector” was turned on for use on the Client Workbook:

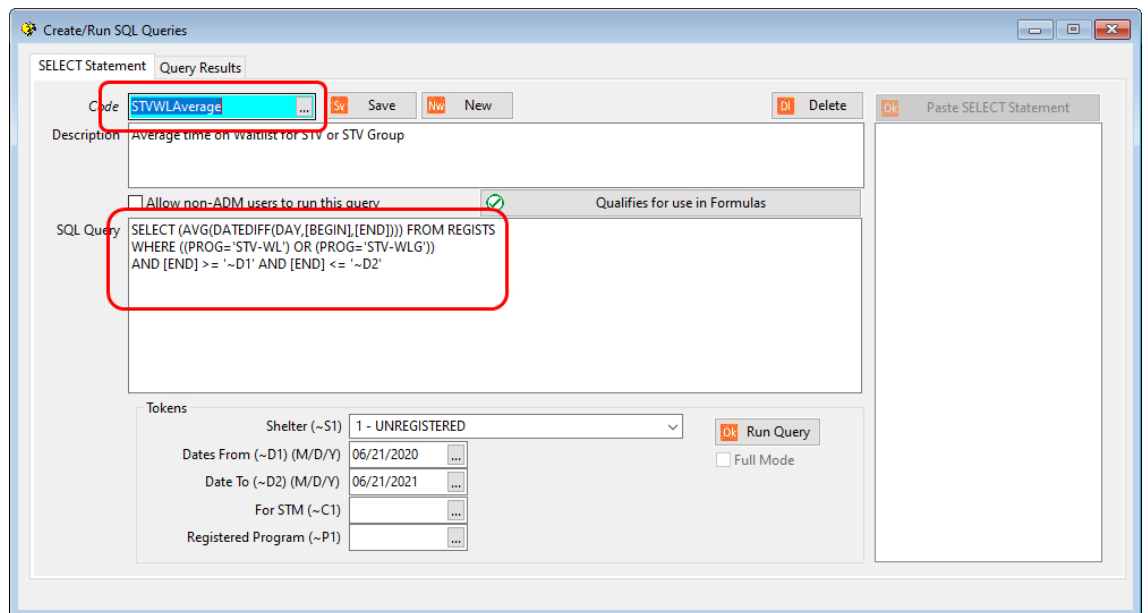

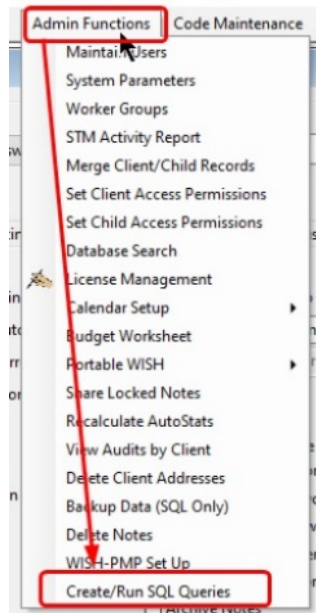

Secondly, we wanted to make sure that it was now mandatory:

It is IMPORTANT that staff be advised to ensure a proper selection of Gender as well as the Client’s Date of Birth going forward so that these statistics can be calculated accurately. Some agencies ONLY serve Female clients, and in this case you can decide to leave these options turned off, forcing the entire caseload to be reported as 100% Female.

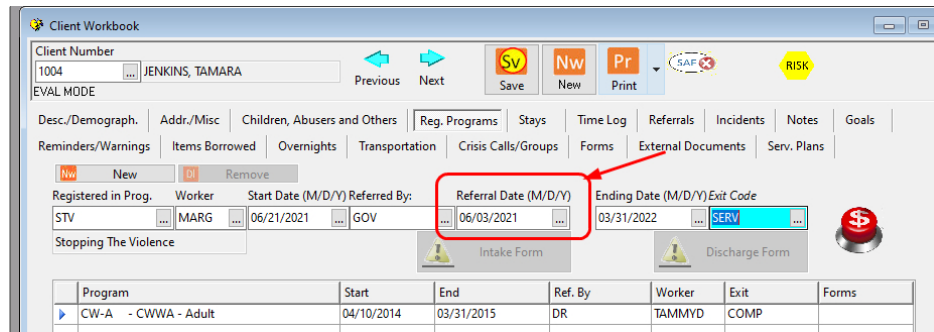

SQL Query

This is a bit of an advanced topic. A new stat that MPSSG is now asking is for the amount of time that clients were on the waitlist before they came off of the waitlist. The catch is that this includes people who were on the waitlist and decided to stop pursuing service and came off the waitlist without ever going into program. This little twist is important, because otherwise we could easily track it by using the “Referral Date” of every client coming into the STV program. Currently this specific stat can ONLY be accurately tracked in the SQL version of **W.I.S.H.**™ by creating an SQL Query. Here is the SQL Query that I created in the B.C. Demo Set of data for illustration purposes only (since the BC Demo Data is not stored in SQL):

If you are running SQL and you need a hand to set this up, just reach out to our Support Department for assistance.

On the other hand, if you are NOT running **W.I.S.H.**™ in SQL, you will need to ensure that staff enter the “Referral Date” as the date that they came onto the waitlist when they are actively intaked into the STV Program. While this will be an imperfect stat (it will not include stats on those dropped from the waitlist who never came into service), it will at least report the stat for those clients who did end up coming into service. The best advise is to upgrade to the SQL version of **W.I.S.H.**™ to ensure full compliance with this statistical request.

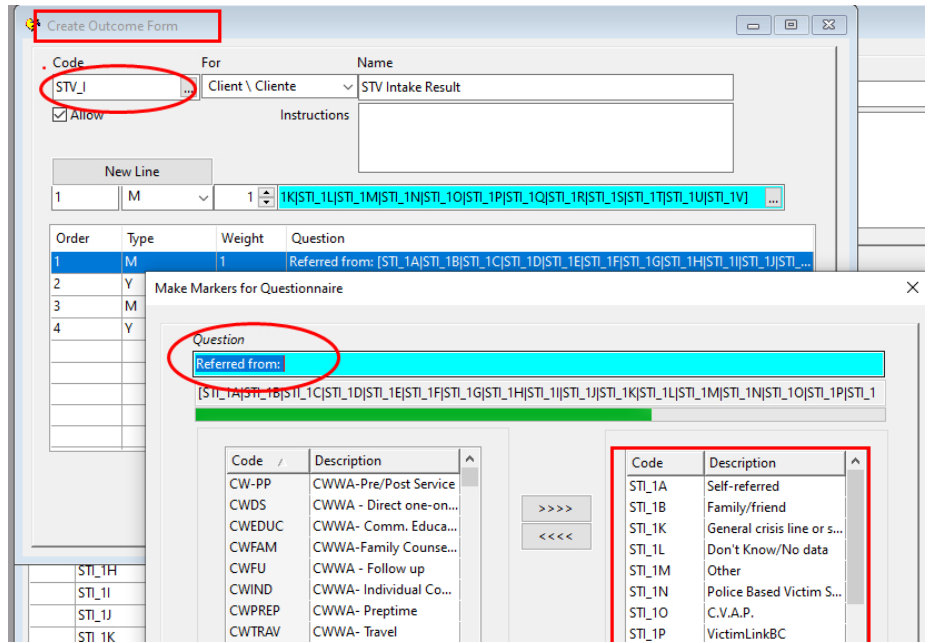

Form Changes

In the set of demo data for B.C., we already had two Forms which were set up for STV, and both needed some minor alterations:

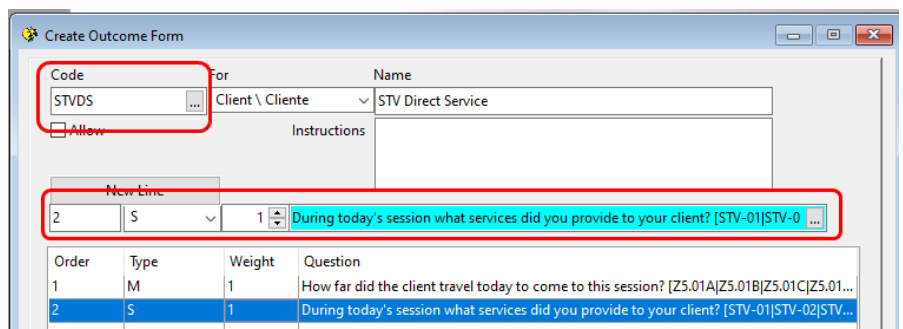

- **STV-I** - This form was set up and intended to be used as a “Pre-Screen” form. You should already have a similar form like this one. MPSSG asks the question about who referred the client to your service, but it is to include ALL referrals and not just the referrals who ended up becoming a client in the program. Because of this, the stat around referrals MUST come at a “pre-screen” event. In our demo, this form was tied to the use of the **STV-INT** Time Log which was used to track and denote a pre-admission intake interview event with the Client. Because the form already existed, we simply had to add some options around referral choices to our Question #1 of the Form.
 - Added choices to Question #1 regarding the new Referral stat groupings from MPSSG. In the demo data, they were added as Time Log Codes, **STI_1N ~ STI_1V**.

Code	Description	Allow
STI_1N	Police Based Victim Service	<input type="checkbox"/>
STI_1O	C.V.A.P.	<input type="checkbox"/>
STI_1P	VictimLinkBC	<input type="checkbox"/>
STI_1Q	Comm. Based Victim Services	<input type="checkbox"/>
STI_1R	Victim Safety Unit	<input type="checkbox"/>
STI_1S	Crown Counsel or Victim Court Sup...	<input type="checkbox"/>
STI_1T	Transition House/Safe Home	<input type="checkbox"/>
STI_1U	P.E.A.C.E.	<input type="checkbox"/>
STI_1V	Stopping The Violence	<input type="checkbox"/>

- STV-DS** - This form is linked to the Time Log code also coded **STV-DS**. Originally, it was used to gather details on how far the client had to travel for that day's counselling session. A second question (Question #2) was added to this Form to now track specifics on types of services and referrals delivered during that session in order to be able to report this under section "F" of the new Formulas. Time Log Codes were created **STV-01 ~ STV-12** for the purposed of becoming the choices for this question on the form.

Code	Description	Allow
STV-01	Assist with CVAP forms	<input type="checkbox"/>
STV-02	Assist with Restitution Forms	<input type="checkbox"/>
STV-03	Assisted with Victim Safety Unit For...	<input type="checkbox"/>
STV-04	Did Safety Planning	<input type="checkbox"/>

STV-11	Ref to/Info given re Trans. Houses/S...	<input type="checkbox"/>
STV-12	Ref to/Info given re Other services	<input type="checkbox"/>

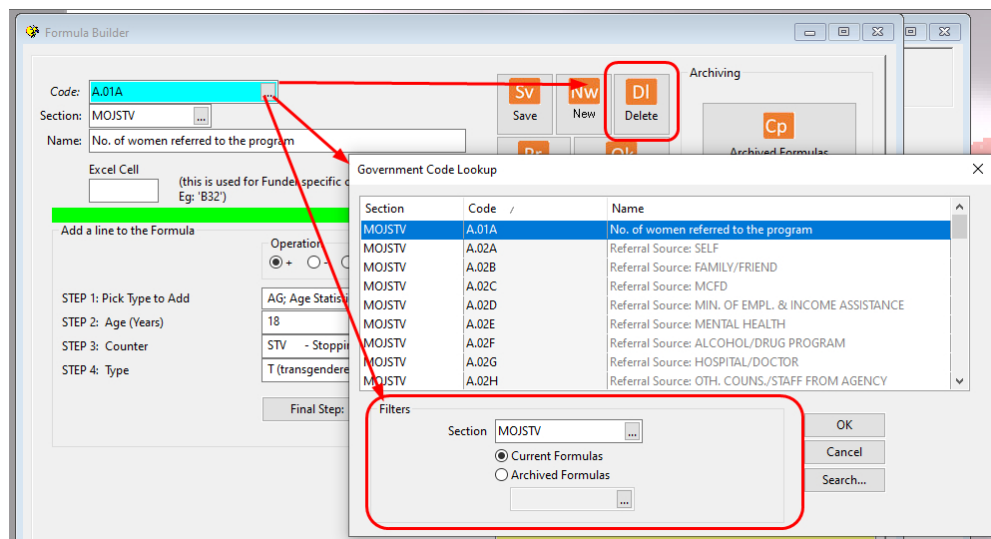

Creating New Formulas

In a step above, the Formula Sections and Formula Titles were created, but without any Formulas. The list of formulas that I used now in the demo set of data for B.C. for tracking STV are included at the end of this document as Appendix A.

Deleting Old Formulas

Realizing that you should not delete Formulas if you haven't yet made an Archive, be sure that you have already created an Archive as covered near the top of this document before deciding to remove the older formulas from the "Current" formulas.

In the set of demo data, STV was previously gathered under the Section Header Code **MOJSTV**. Now that I have a new set of formulas gathered under the new Section Header Code **MPSSG-STV**, I wanted to remove the older formulas (remember they will always exist in my set of "Archived Formulas". To delete these formulas, in the Formula Builder I use the look up list with the filter of **MOJSTV** applied and then one-by-one select each old formula from the list and use the Delete Key on the screen to permanently remove the formula from my Current formulas.

Other Considerations

Closing Files

The definitions of the stats tell you to count a Client as a “New Client” if they have been absent from service for more than 3 months and then start again. This dictates that you should do a Case Review periodically (monthly, for example) and establish criteria around closing the Client’s file if they have not received service for 3 months. In **W.I.S.H.**™ this is done by “Ending” the Registered Program. Then if the Client returns to service, you would re-intake them to the program. You may want to change the Registered Program settings so that they now do not expire at the end of any specific month, but rather the ending date is determined by “Duration”

Code	Description	Allow	Base	Ends	Duration	Intake Form (blank for none)	Discharge Form (blank for none)	Umbrella	Work Plan
CW-A	CWWA - Adult	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	9999			None	
CW-C	CWWA - Child	<input checked="" type="checkbox"/>	Children ...	0 - USE DUR...	9999			None	
CW-WL1	CWWA Waitlist-Children	<input checked="" type="checkbox"/>	Children ...	0 - USE DUR...	180			None	
CW-WL2	CWWA Waitlist-Moms	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	180			None	
STV	Stopping The Violence	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	9999			None	
STV-WL	STV -Couons. Waitlist	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	60			None	
STV-WLG	STV -Group Waitlist	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	60			None	

Gender and Date of Birth

I mentioned this prior, but it worth a mention again to advise staff to be sure to enter accurate Date of Birth and Gender for the Client, otherwise the statistics will not be accurate.

Intake “Pre-screen”

You **MUST** go through the Intake Pre-screen event (Time Log Code **STV-INT**) with EVERY Client to ensure that your stats are accurate. This includes ALL people coming to your for service even if they are not within your mandate or decide not to come into service.

P.E.A.C.E. (formerly Children Who Witness Abuse)

As with the 4 funded programs covered in this document, the changes that were shared with us in June 2021 showed a significant shift in what sort of detail was now being requested. The data for each program, including P.E.A.C.E., is now grouped into 8 groups:

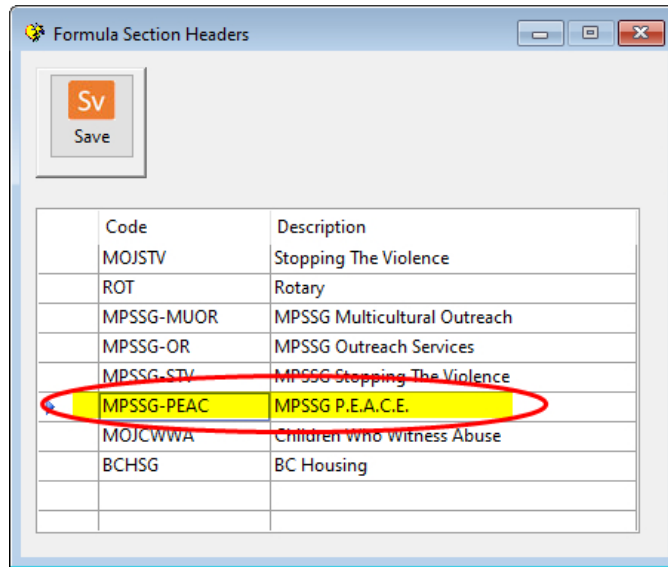

- A. Caseload Information
- B. Community Coordination
- C. Community Engagement
- D. New Client Information
- E. Referral Information
- F. Services Provided
- G. Staffing Information
- H. Training Information

[Creating a New Section Header](#)

All in all, the new format is nicely organized and easy to follow. To track this in the B.C. demo in **W.I.S.H.**TM, I decided to create a new **Formula Section Header**

In that screen, I created a new Formula Section Header: **MPSSG-PEAC**.

Creating New Formulas

I also chose to organize the 8 groupings into similar groupings in the Formula Builder. (A through H). So In the Formula Builder:

I ended up creating the following list of blank Formulas (by the way, if you like this I have a utility that will import them all rather than you having to type them all in... get in touch with me if you want me to import these codes):

Section Code Name/Description

A-01	MPSSG-PEAC	Caseload Info: # of new clients
A-02	MPSSG-PEAC	Caseload Info: # of contacts made with clients
A-03	MPSSG-PEAC	Caseload Info: Active caseload
A-04	MPSSG-PEAC	Caseload Info: Kms travelled to provide services to clients
A-05	MPSSG-PEAC	Caseload Info: # of individuals on waitlist
A-06	MPSSG-PEAC	Caseload Info: Aver days clients served this mth on W-List
B-01	MPSSG-PEAC	Comm. Coord: Hrs in VAWIR Committee work
B-02	MPSSG-PEAC	Comm. Coord: Hrs spent on SART

B-03	MPSSG-PEAC	Comm. Coord: Hrs spent on ICAT
B-04	MPSSG-PEAC	Comm. Coord: Hrs spent on comm. coord. activities
B-05	MPSSG-PEAC	Comm. Coord: Anything else to highlight this mth.
B-06	MPSSG-PEAC	Comm. Coord.: Kms travelled for Comm. Coord. this month
C-01	MPSSG-PEAC	Comm. Engagemt: Hrs spent attending events
C-02	MPSSG-PEAC	Comm. Engagemt: Hrs spent providing info/pres/comm ed.
C-03	MPSSG-PEAC	Comm. Engagemt: Hrs spen on other comm. engagemt activities
C-04	MPSSG-PEAC	Comm. Engagemt: Is there anything else to highlight

[Adding New Codes to W.I.S.H.](#)

As I was doing this in the B.C. Demo set of data for **W.I.S.H.**[™], some codes already existing, and some codes would need to be added to be compliant.

[Existing Registered Program Codes](#)

In the B.C. demo there were already 4 Registered Programs set up for the P.E.A.C.E. program, and there was no need to add any to this list.

- **CW-A**
- **CW-C**
- **CW-WL1**
- **CW-WL2**

The latter two are strictly for tracking Waitlists. In any event, insofar as the B.C. demo set of data was concerned. There was no need to change or add any Registered Program Codes.

[Existing Time Log Codes](#)

The B.C. demo data already had a several Time Log Codes that were set up:

- **CW-PP** - Pre/Post Service

- **CWEDUC** - Public Education
- **CWFAM** - Family Counselling
- **CWIND** - Individual Counselling
- **CWPREP** - Prep Time
- **CWTRAV** - Travel Time

For the purposes of meeting the new criteria, we found that we were OK to leave these codes untouched, although I had contemplated getting rid of both **CWFAM** and **CWIND** and replacing them with a single code "**CW-DS**" for "Direct Service" since MPSSG seemed to no longer want to know stats on "Family" versus "Individual" counselling, but in the end decided against this just in case that became a required statistic again in the future.

New Time Log Codes

In the new sets of statistics requested by MPSSG, there are several questions regarding work done on various provincial committees, and to be able to track that activity we had to add 4 new Time Log Codes. Also, a Time Log code that was not originally set up in **W.I.S.H.**TM was a Time Log code for "Intakes" – so we set one up. In addition, there was a question in section "H" of the new stats that request details on staff training. While most of that last section were asking details not tracked at all in **W.I.S.H.**TM, we decided that we could easily track the "hours" that staff were engage in training which led us to adding a fifth code. Each of these codes (with the exception of **CW-INT**) were added with the option of "**No Client**" selected as these were intended to be put on the STM's Time Log sheet without being connected to a specific client. The following Time Log Codes were added:

- **CW-C1** - PEACE VAWIR Committee work
- **CW-C2** -PEACE SART Work
- **CW-C3** -PEACE ICAT Work
- **CW-C4** -PEACE Other Comm. Coordination Work
- **CW-CE1** -PEACE attendance at a Community Event
- **CW-CE2** -Other PEACE Community Engagement
- **CW-INT** -PEACE Intake Pre-screen
- **CW-TR** -Training for PEACE Staff

Code	Description	Allow	No Value	No Client	Requisite	Program	Alt. Prog.	Form
CW-C1	CW VAWIR Committee work	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
CW-C2	CW SART Committee work	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
CW-C3	CW ICAT Committee work	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
CW-C4	CW Other Community Committee ...	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
CW-CE1	CW Attended Community Event	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
CW-CE2	CW Other Community Engagement	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
CW-INT	CW Intake	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None			CWREF
CW-PP	CWWA-Pre/Post Service	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None			
CW-TR	Training for PEACE Staff	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
CWEDUC	CWWA- Comm. Education	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
CWFAM	CWWA-Family Counselling	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Must be In Program	CW-A	CW-C	CWDS CWDS
CWIND	CWWA- Individual Counselling	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Must be In Program	CW-A	CW-C	
CWPREP	CWWA- Preptime	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
CWTRAV	CWWA- Travel	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			

In addition to adding these new Time Log Codes, the **CW-INT** is connected to the Form **CWREF** which also already existed in our B.C. Demo data.

Tracking Age and Gender

One of the significant changes to all of the MPSSG stats (including PEACE) is around both Age and Gender. Section “D” of the stats want to know details on both Age and Gender of the Clients accessing Service. In **W.I.S.H.™** the “Gender Selector” choices are:

- Female
- Male
- Transgendered

MPSSG is requesting Gender be reported as:

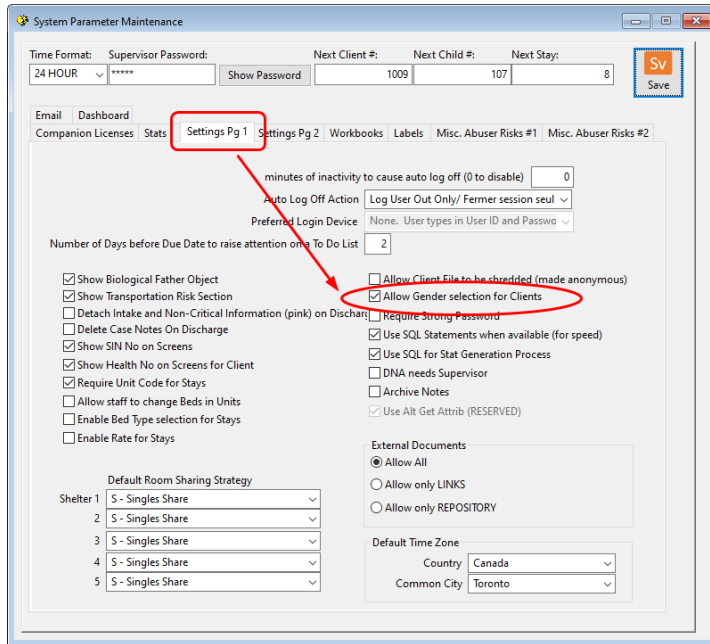

- Female
- Male
- Non-binary

If you can overlook the mismatch of the words “Transgendered” and “Non-binary”, the current Gender Selector works well for the MPSSG model. (SIDEBAR NOTE: Shortly – likely early next year – you will be given more flexibility with modifying the Gender choices in **W.I.S.H.™**). Furthermore, **W.I.S.H.™** already compiles Age by Gender statistics, so using the current Gender selector in **W.I.S.H.™** delivers a double-bonus

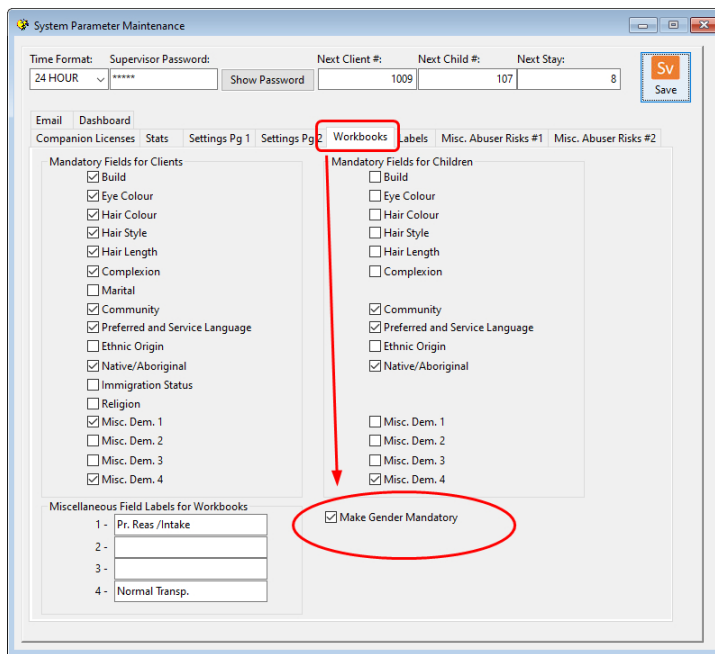

To consider using the Gender Selector in the B.C. Demo Data, we made two changes. Both changes were found in the **.Admin Functions.System Parameters** screen.

First, we wanted to make certain that the “Gender Selector” was turned on for use on the Client Workbook:

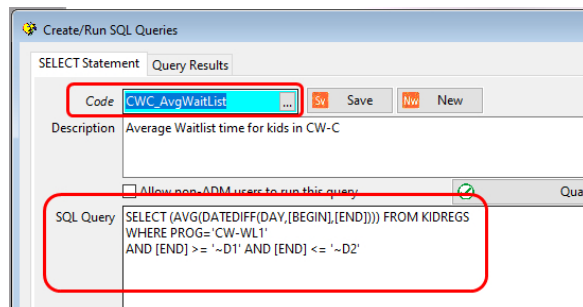

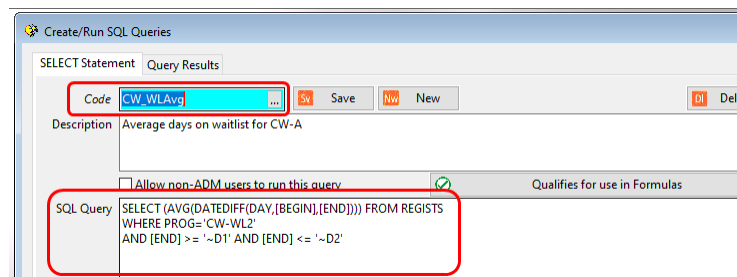

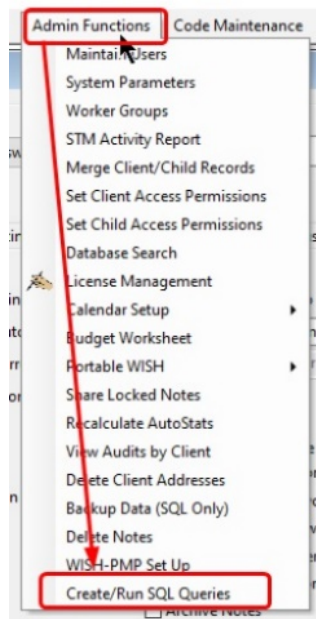

Secondly, we wanted to make sure that it was now mandatory:

It is IMPORTANT that staff be advised to ensure a proper selection of Gender going forward. Some agencies ONLY serve Female clients, and in this case you can decide to leave these options turned off, forcing the entire caseload to be reported as 100% Female.

SQL Query

This is a bit of an advanced topic. A new stat that MPSSG is now asking is for the amount of time that clients were on the waitlist before they came off of the waitlist. The catch is that this includes people who were on the waitlist and decided to stop pursuing service and came off the waitlist without ever going into program. This little twist is important, because otherwise we could easily track it by using the “Referral Date” of every client coming into the PEACE program. Currently this specific stat can ONLY be accurately tracked in the SQL version of **W.I.S.H.**™ by creating two SQL Queries. Here are the SQL Queries that I created in the B.C. Demo Set (one for the adult’s waitlist and one for the children’s waitlist) of data for illustration purposes only (since the BC Demo Data is not stored in SQL):

If you are running SQL and you need a hand to set this up, just reach out to our Support Department for assistance.

On the other hand, if you are NOT running **W.I.S.H.**™ in SQL, you will need to ensure that staff enter the “Referral Date” as the date that they came onto the waitlist when they are actively intaked into the PEACE Program. While this will be an imperfect stat (it will not include stats on those dropped from the waitlist who never came into service), it will at least report the stat for those clients who did end up coming into service. The best advise is to upgrade to the SQL version of **W.I.S.H.**™ to ensure full compliance with this statistical request.

The screenshot shows the 'Client Workbook' application window. At the top, there's a header with 'Client Number' 1004 and 'JENKINS, TAMARA'. Below that are navigation buttons (Previous, Next) and action buttons (Save, New, Print). A menu bar includes options like Desc./Demograph., Addr./Misc, Children, Abusers and Others, Reg. Programs, Stays, Time Log, Referrals, Incidents, Notes, Goals, Reminders/Warnings, Items Borrowed, Overnights, Transportation, Crisis Calls/Groups, Forms, External Documents, and Serv. Plans. The main area displays client details: Registered in Prog. (CW-A), Worker (MARG), Start Date (06/22/2021), Referred By (SELF), Referral Date (5/5/2021), Ending Date (11/06/2048), and Exit Code (SERV). Below this is a table with columns: Program, Start, End, Ref. By, Worker, Exit, and Forms.

Program	Start	End	Ref. By	Worker	Exit	Forms
STV - Stopping The Violence	06/21/2021	03/31/2022	GOV	MARG	SERV	
CW-A - CWWA - Adult	04/10/2014	03/31/2015	DR	TAMMYD	COMP	

Form Changes

In the set of demo data for B.C., we decided to use a similar approach as was done in the STV program . We already had a “pre-screen” Form (CWWREF) and then chose to set up a new Form **CWDS**:

- **CWWREF** - This form was already set up and intended to be used as a “Pre-Screen” form. You should already have a similar form like this one. MPSSG asks the question about who referred the client to your service, but it is to include ALL referrals and not just the referrals who ended up becoming a client in the program. Because of this, the stat around referrals **MUST** come at a “pre-screen” event. In our demo, this form was tied to the use of the new **CW-INT** Time Log which was used to track and denote a pre-admission intake interview event with the Client. Because the form already existed, we simply had to add some options around referral choices to our Question #1 of the Form.
 - Added choices to Question #1 regarding the new Referral stat groupings from MPSSG. In the demo data, they were added as Time Log Codes, **Z401N ~ Z401U**.

Code	Description	Allow
Z4.01N	Crime Victim Assistance CVAP	<input type="checkbox"/>
Z4.01O	VictimLinkBC	<input type="checkbox"/>
Z4.01P	Comm. Based Victim Services	<input type="checkbox"/>
Z4.01Q	Police Based Victim Services	<input type="checkbox"/>
Z4.01R	Crown Counsel or Victim Court Sup...	<input type="checkbox"/>
Z4.01S	Transition House or Safe House	<input type="checkbox"/>
Z4.01T	Stopping The Violence counselling	<input type="checkbox"/>
Z4.01U	Stopping the Violence Outreach Ser...	<input type="checkbox"/>

- The original Form in our B.C. Demo had several other questions that were designed to supply statistics that are no longer being asked. We decided to eliminate these Questions 3 through 9 that were on this form as they were no longer relevant.
- Because we wanted to change how this Form was accessed in **W.I.S.H.™**, I decided to set up the new Time Log code **CW-INT** (discussed above) in order to have staff enter their Intake Pre-screens. As pointed out above, this Form was attached to the Time Log code.
- Also, because I now wanted this Form to be ONLY used by the use of the related Time Log code, I now unchecked the “Allow” checkbox for the Form.
- **CWDS** - This is a new Form that I set up and afterwards made sure to link it to the Time Log codes **CW-FAM** and **CW-IND**. The purpose of this Form is to track statistics to answer the questions for Statistics “F-05” and “F-06”. These are questions asking to report the number of times you helped a Client work on a 3rd party report, or helped a Client do safety planning. Time Log Codes **Z601A** and **Z601B** were created for the purpose of becoming the choices for this question on the form.

Z5.01D	Unknown				None
Z601A	Worked on/completed 3rd party for...	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None
Z601B	Did safety planning	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None

Creating New Formulas

In a step above, the Formula Sections and Formula Titles were created, but without any Formulas. The list of formulas that I used now in the demo set of data for B.C. for tracking PEACE are included at the end of this document as Appendix B.

Deleting Old Formulas

Realizing that you should not delete Formulas if you haven't yet made an Archive, be sure that you have already created an Archive as covered near the top of this document before deciding to remove the older formulas from the "Current" formulas.

In the set of demo data, STV was previously gathered under the Section Header Code **MOJCWWA**. Now that I have a new set of formulas gathered under the new Section Header Code **MPSSG-PEAC**, I wanted to remove the older formulas (remember they will always exist in my set of "Archived Formulas"). To delete these formulas, in the Formula Builder I use the look up list with the filter of **MOJCWWA** applied and then one-by-one select each old formula from the list and use the Delete Key on the screen to permanently remove the formula from my Current formulas.

Code: A.01A Section: MOJSTV Name: No. of women referred to the program

Excel Cell: (this is used for Funds specific c Eg: 'B32')

Government Code Lookup

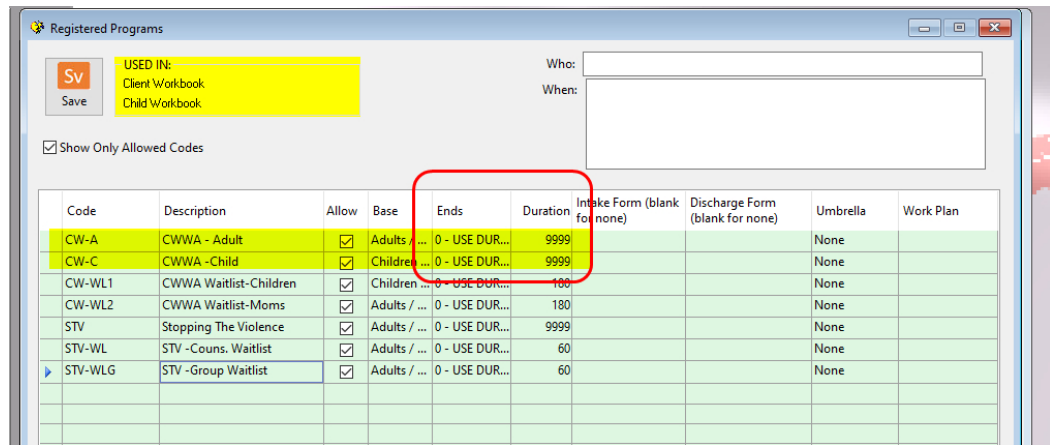

Section	Code	Name
MOJSTV	A.01A	No. of women referred to the program
MOJSTV	A.02A	Referral Source: SELF
MOJSTV	A.02B	Referral Source: FAMILY/FRIEND
MOJSTV	A.02C	Referral Source: MCFD
MOJSTV	A.02D	Referral Source: MIN. OF EMPL. & INCOME ASSISTANCE
MOJSTV	A.02E	Referral Source: MENTAL HEALTH
MOJSTV	A.02F	Referral Source: ALCOHOL/DRUG PROGRAM
MOJSTV	A.02G	Referral Source: HOSPITAL/DOCTOR
MOJSTV	A.02H	Referral Source: OTH. COUNS./STAFF FROM AGENCY

Filters: Section: MOJSTV
 Current Formulas
 Archived Formulas

Other Considerations

Closing Files

The definitions of the stats tell you to count a Client as a “New Client” if they have been absent from service for more than 3 months and then start again. This dictates that you should do a Case Review periodically (monthly, for example) and establish criteria around closing the Client’s file if they have not received service for 3 months. In **W.I.S.H.**™ this is done by “Ending” the Registered Program. Then if the Client returns to service, you would re-intake them to the program. You may want to change the Registered Program settings so that they now do not expire at the end of any specific month, but rather the ending date is determined by “Duration”

Code	Description	Allow	Base	Ends	Duration	Intake Form (blank for none)	Discharge Form (blank for none)	Umbrella	Work Plan
CW-A	CWWA - Adult	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	9999			None	
CW-C	CWWA - Child	<input checked="" type="checkbox"/>	Children / ...	0 - USE DUR...	9999			None	
CW-WL1	CWWA Waitlist-Children	<input checked="" type="checkbox"/>	Children / ...	0 - USE DUR...	180			None	
CW-WL2	CWWA Waitlist-Moms	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	180			None	
STV	Stopping The Violence	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	9999			None	
STV-WL	STV -Couns. Waitlist	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	60			None	
STV-WLG	STV -Group Waitlist	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	60			None	

Gender and Date of Birth

I mentioned this prior, but it worth a mention again to advise staff to be sure to enter accurate Date of Birth and Gender for the Client, otherwise the statistics will not be accurate.

Intake “Pre-screen”

You **MUST** go through the Intake Pre-screen event (Time Log Code **CW-INT**) with **EVERY** Client (including Children) entering into service in this program to ensure that your stats are accurate. This includes **ALL** people coming to you for service even if they are not within your mandate or decide not to come into service.

Outreach Services Program

Prior to this point, we did not have this included in the set of B.C. Demo Data of **W.I.S.H.**™. So this seems like an optimal time to build a set of codes and formulas from scratch. The process of deciding what codes should be added when considering a new funder basically begins at the end of where you want to end up. In other words, what statistics do you want/(need) to report. Whenever I build a set of codes for a demo set of data, I normally just assume that the only stats I want are exactly what the funder requests – no more, no less.

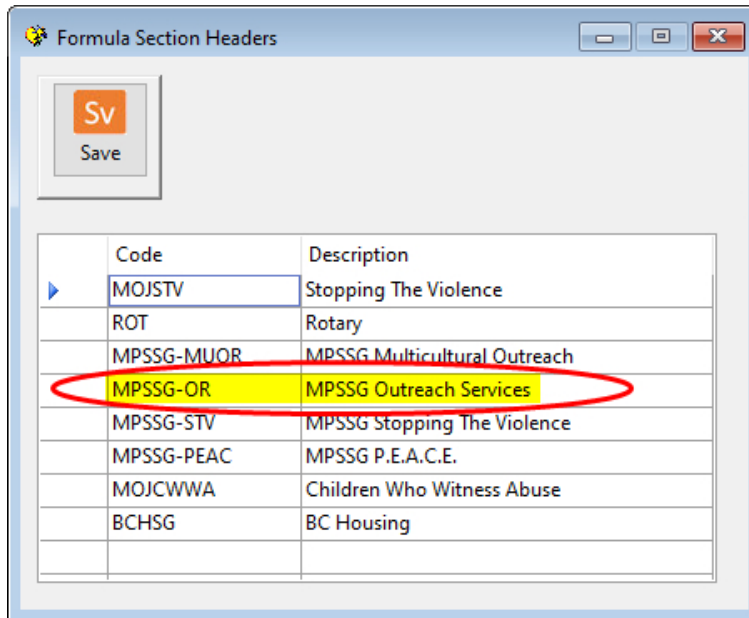

Once I identify the stats, I need to understand exactly what is being asked. Sometimes the definitions can be a bit vague and sometimes there be no definitions at all leaving you to rely on your own interpretations. The document that was shared with me from MPSSG did provide definitions and for the most part was pretty good. I found that in some cases either the definition was indeed a bit lacking or, because I am a “computer person” and don’t physically work as a counsellor in this funded service, I simply wasn’t sure and had to make some assumptions – likely correct, but it is always something to consider (i.e. did Mike understand this stat request properly).

[Creating a New Section Header](#)

Start by creating a new **Formula Section Header** for these statistics to be gathered under.

In that screen, I created a new Formula Section Header: **MPSSG-OR**.

	Code	Description
▶	MOJSTV	Stopping The Violence
	ROT	Rotary
	MPSSG-MUOR	MPSSG Multicultural Outreach
	MPSSG-OR	MPSSG Outreach Services
	MPSSG-STV	MPSSG Stopping The Violence
	MPSSG-PEAC	MPSSG P.E.A.C.E.
	MOJCWWA	Children Who Witness Abuse
	BCHSG	BC Housing

Creating New Formulas

Create new blank formulas in the Formula Builder :

The next page shows the list of blank Formulas that I created in the B.C. Demo Data which will be later populated with formulas. (By the way, if you like this I have a utility that will import them all rather than you having to type them all in... get in touch with me if you want me to import these codes):

A-01	MPSSG-OR	Caseload Info: # of new clients
A-02	MPSSG-OR	Caseload Info: # of contacts made with clients
A-03	MPSSG-OR	Caseload Info: Active caseload
A-04	MPSSG-OR	Caseload Info: Kms travelled to provide services to clients

H-03	MPSSG-OR	Training: Hrs of staff training
H-04	MPSSG-OR	Training: Anything to highlight?

Registered Program Codes

The first task is to identify who the “Client” is. In the case of this program funded by MPSSG, I made the assumption that Outreach Services were provided to “adults” and thus would be expected to have a Client Workbook in **W.I.S.H.**™. When I look at the stats there are statistics that talk about “caseload” but also about “wait-lists”, therefore the model for Registered Programs would be very similar to that of the Stopping the Violence Program.

Two Registered Program Codes added:

- **OR** -Outreach Services
- **ORWAIT** -Outreach Services Waitlist

Code	Description	Allow	Base	Ends	Duration	Intake Form (blank for none)	Discharge Form (blank for none)	Umbrella	Work Plan
CW-A	CWWA - Adult	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	9999			None	
CW-C	CWWA - Child	<input checked="" type="checkbox"/>	Children ...	0 - USE DUR...	9999			None	
CW-WL1	CWWA Waitlist-Children	<input checked="" type="checkbox"/>	Children ...	0 - USE DUR...	180			None	
CW-WL2	CWWA Waitlist-Moms	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	180			None	
OR	Outreach Program	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	9999			None	
ORWAIT	Outreach Waitlist	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	180			None	
STV	Stopping The Violence	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	9999			None	
STV-WL	STV -Couns. Waitlist	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	60			None	
STV-WLG	STV -Group Waitlist	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	60			None	

Notice that the “Ends” was set to **0-Use Duration**, and the “Duration” was set to **9999** for the **OR** program and less for the wait list.

Time Log Codes

Following the same model that was create for STV, several new Time Log Codes were created:

- **OR-C1** -VAWIR Committee Work
- **OR-C2** -SART Committee Work
- **OR-C3** -ICAT Committee Work
- **OR-C4** -Other Committee Work
- **OR-CE1** -OR Attendance at Community Event
- **OR-CE2** -OR Other Community Engagement
- **OR-CE2** -OR Public Education
- **OR-DS** -Direct one-on-one

- Set Prerequisite to be in **OR** Program
- Set “Form” to be **OR-DS** (this Form is set up later)
- **OR-INT** -Intake pre-screen
 - Set “Form” to be **OR-INT** (this Form is set up later)
- **OR-PRE** -Pre/Post Service
- **OR-TR** -OR Staff Training

Notice that All Codes are set to be “No Client” except for

- **OR-DS,**
- **OR-INT,** and
- **OR-PRE.**

Code	Description	Allow	No Value	No Client	Requisite	Program	Alt. Prog.	Form
OR-C1	OR VAWIR Committee work	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
OR-C2	OR SART Committee work	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
OR-C3	OR ICAT Committee Work	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
OR-C4	OR Other Comm. Coord. Activities	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
OR-CE1	OR Attendance at Community Event	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
OR-CE2	OR Other Community Engagement	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
OR-CE3	OR Public Education	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
OR-DS	OR - Direct one-on-one	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Must be In Program	OR		OR-DS OR-INT
OR-INT	OR Intake Prescreen	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None			
OR-PRE	OR Pre/Post Service	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None			
OR-TR	OR Staff Training	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			

Call Type Code

The following Call Type Code was added to facilitate logging anonymous calls to inquire about the program

- **ORS** -Inquiry about the ORS program

The screenshot shows the 'Crisis Call Type Maintenance' window. At the top, there is a 'Save' button and a yellow box indicating 'USED IN: Crisis Calls'. Below this, there are fields for 'Who:' and 'When:' with a dropdown menu. A checkbox labeled 'Show Only Allowed Codes' is checked. The main part of the window is a table with columns: Code, Description, Allow, Require Served, Require Ref Srce, Require Reason, Require Region, and Require Abuser. The 'ORS' row is highlighted with a red box and has yellow cells in the 'Require Served', 'Require Ref Srce', 'Require Reason', and 'Require Abuser' columns.

Code	Description	Allow	Require Served	Require Ref Srce	Require Reason	Require Region	Require Abuser
CR	Crisis Call	<input checked="" type="checkbox"/>	Do Not Allow	Do Not Allow	Do Not Allow	Mandatory	Mandatory
CWWA	PEACE-Call for info	<input checked="" type="checkbox"/>	Do Not Allow	Do Not Allow	Do Not Allow	Do Not Allow	Do Not Allow
INFO	Call for information	<input checked="" type="checkbox"/>	Do Not Allow	Do Not Allow	Do Not Allow	Mandatory	Do Not Allow
ORS	ORS -Call for information	<input checked="" type="checkbox"/>	Do Not Allow	Do Not Allow	Do Not Allow	Do Not Allow	Do Not Allow
REF	Ref. to TH	<input checked="" type="checkbox"/>	Do Not Allow	Mandatory	Mandatory	Do Not Allow	Do Not Allow

STV	STV Crisis Call	<input checked="" type="checkbox"/>	Do Not Allow	Do Not Allow	Do Not Allow	Do Not Allow	Do Not Allow

Group Code

- **OR** -Outreach Support Group
 - has the prerequisite that the participant must be enrolled in the **OR** program.

The screenshot shows the 'Group Code Maintenance' window. At the top, there is a 'Save' button and a yellow box indicating 'USED IN: Log Group Functions'. Below this, there are fields for 'Who uses this code:' and 'When should they use it:'. A checkbox labeled 'Show Only Allowed Codes' is checked. The main part of the window is a table with columns: Code, Description, Base, Allow, Requisite, Program, and Alt. Prog. The 'OR' row is highlighted with a red box and has yellow cells in the 'Requisite' and 'Program' columns.

Code	Description	Base	Allow	Requisite	Program	Alt. Prog.
CW-A	Child Witness - Adult	ADULT / ADULTE	<input checked="" type="checkbox"/>	Reg.Prog.	CW-A	
CW-C	Child Witness - Children	CHILD / ENFANT	<input checked="" type="checkbox"/>	Reg.Prog.	CW-C	
OR	Outreach Support Group	ADULT / ADULTE	<input checked="" type="checkbox"/>	Reg.Prog.	OR	
REC	Recreational Group	Adults & child...	<input checked="" type="checkbox"/>	None		
RM	Residents Mtg/Shelter Grp	ADULT / ADULTE	<input checked="" type="checkbox"/>	None		
STV1	STV Drop in Group	ADULT / ADULTE	<input checked="" type="checkbox"/>	None		
STV2	STV Counselling Group	ADULT / ADULTE	<input checked="" type="checkbox"/>	Reg.Prog.	STV	

Forms

Very similar to the STV Program, the Outreach Services program will require 2 Forms

- **OR-DS**

- To record additional types of service provided during a one-on-one session
- This Form only has a single question
- Set as a “Form” that is attached to the Time Log Code also coded “OR-DS”.
- Choices coded as **Z701A ~ Z701H**
- Notice that the “Allow” is NOT checked.

Code	Description	Allow	No Value	No Client	Requisite	Program	Alt. Prog.	Form
Z701A	transported to TH or Safe House	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None

- **OR-INT**

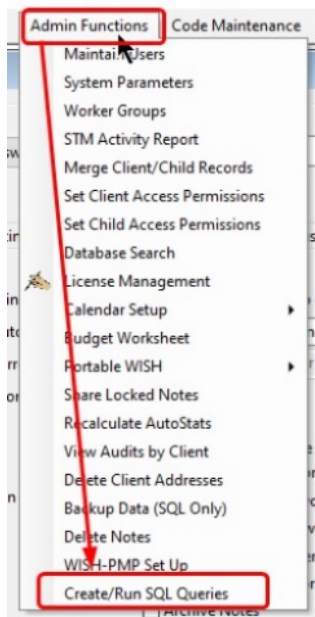

- This Form is intended for use during the Intake Pre-screen and will gather information about the Referral Source. Because MPSSG is asking for statistics about Referral Source for ALL referrals to your service and just not the ones who end up coming into the program, it is imperative that EVERY Intake goes through the same pre-screen process.
- The Form is created and attached to the Time Log Code **OR-INT** in the same manner that you attached the **OR-DS** form.
- The Form has its “Allow” checkbox left unchecked because we want to force its usage only through the logging of the Time Log code to which it is attached.
- The Form only has a single question and its choices are coded as **Z801A ~ Z801J**

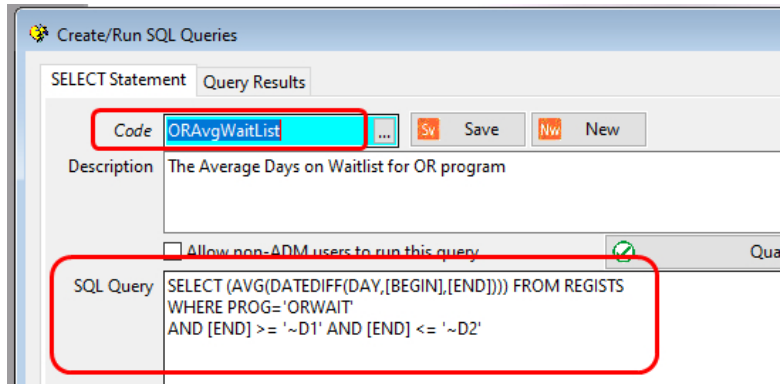

SQL Query

This is a bit of an advanced topic. A new stat that MPSSG is now asking is for the amount of time that clients were on the waitlist before they came off of the waitlist. The catch is that this includes people who were on the waitlist and decided to stop pursuing service and came off the waitlist without ever going into program. This little twist is important, because otherwise we could easily track it by using the “Referral Date” of every client coming into the OR program. Currently this specific stat can ONLY be accurately tracked in the SQL version of **W.I.S.H.**™ by creating an SQL Query. Here is the SQL Query that I created in the B.C. Demo Set of data for illustration purposes only (since the BC Demo Data is not stored in SQL):

Formulas

In the Formula Builder, formulas were created to hook into and track the use of the Registered Program, Call Type, Time Log and SQL Query codes that were set up for this program. These are shown at the end of this document as Appendix C.

Multicultural Outreach Services Program

The steps to build this into **W.I.S.H.**[™] is pretty much identical to the steps that we took to add Outreach Services to the B.C. Demo data. Because of this the instructions have been condensed. For further details, you can refer to the section above for the Outreach Services Program

Formula Section Header Code

The following Formula Section Header Code was created to group the Multicultural Outreach Services Program statistics together.

- **MPSSG-MUOR**

Creating New Formulas

The following blank formulas were created. After all of the other codes are created, you can complete the formulas for each.

Column1	Column2	Column3
A-01	MPSSG-MUOR	Caseload Info: # of new clients
A-02	MPSSG-MUOR	Caseload Info: # of contacts made with clients
A-03	MPSSG-MUOR	Caseload Info: Active caseload
A-04	MPSSG-MUOR	Caseload Info: Kms travelled to provide services to clients
A-05	MPSSG-MUOR	Caseload Info: # of individuals on waitlist
A-06	MPSSG-MUOR	Caseload Info: Aver days clients served this mth on W-List
B-01	MPSSG-MUOR	Comm. Coord: Hrs in VAWIR Committee work
B-02	MPSSG-MUOR	Comm. Coord: Hrs spent on SART

F-11	MPSSG-MUOR	Services Prov: List Other Services referred to
G-01	MPSSG-MUOR	Staffing: Is the program fully staffed
G-02	MPSSG-MUOR	Staffing: Has the program been understaffed for 30+ days
G-03	MPSSG-MUOR	Staffing: If understaff for 30+ days, why?
G-04	MPSSG-MUOR	Staffing: Has there been any staff changes to the program
G-05	MPSSG-MUOR	Staffing: Explanation for changes
G-06	MPSSG-MUOR	Staffing: Staff Hours worked this month
G-07	MPSSG-MUOR	Staffing: Is there anything to highlight
H-01	MPSSG-MUOR	Training: # staff receiving training
H-02	MPSSG-MUOR	Training: List training received
H-03	MPSSG-MUOR	Training: Hrs of staff training
H-04	MPSSG-MUOR	Training: Anything to highlight?

Registered Program Codes

Two Registered Program Codes added:

- **MO** -Multicultural Outreach Services
- **MOWAIT** -Multicultural Outreach Services Waitlist

Notice that the “Ends” was set to **0-Use Duration**, and the “Duration” was set to **9999** for the **MO** program and less for the wait list.

Time Log Codes

These new Time Log Codes were created:

- **MO-C1** -VAWIR Committee Work
- **MO-C2** -SART Committee Work
- **MO-C3** -ICAT Committee Work
- **MO-C4** -Other Committee Work
- **MO-CE1** -MO Attendance at Community Event
- **MO-CE2** -MO Other Community Engagement
- **MO-CE3** -MO Public Education
- **MO-DS** -Direct one-on-one
 - Set Prerequisite to be in **MO** Program
 - Set “Form” to be **MO-DS** (actually you will set this Form up later)
- **MO-INT** -Intake pre-screen
 - Set “Form” to be **MO-INT** (actually you will set this Form up later)
- **MO-PRE** -Pre/Post Service
- **MO-TR** -MO Staff Training

Notice that All Codes are set to be “No Client” except for

- **MO-DS,**
- **MO-INT,** and

- **MO-PRE.**

Call Type Code

The following Call Type Code was added to facilitate logging anonymous calls to inquire about the program

- **MORS** -Inquiry about the Multicultural ORS program

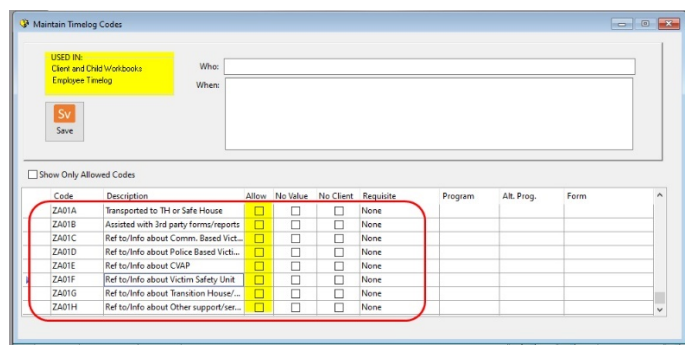

Group Code

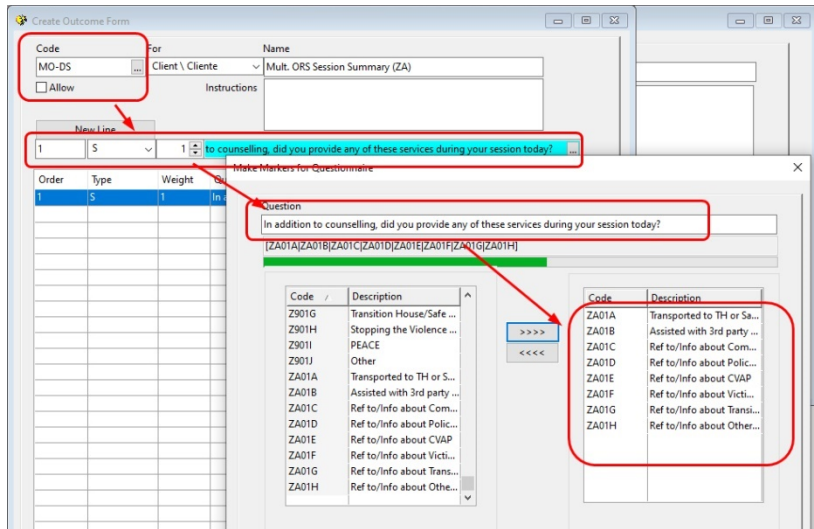

- **MOR** -Multicultural Outreach Support Group
 - has the prerequisite that the participant must be enrolled in the **MO** program.

Forms

The Multicultural Outreach Services program will require 2 Forms

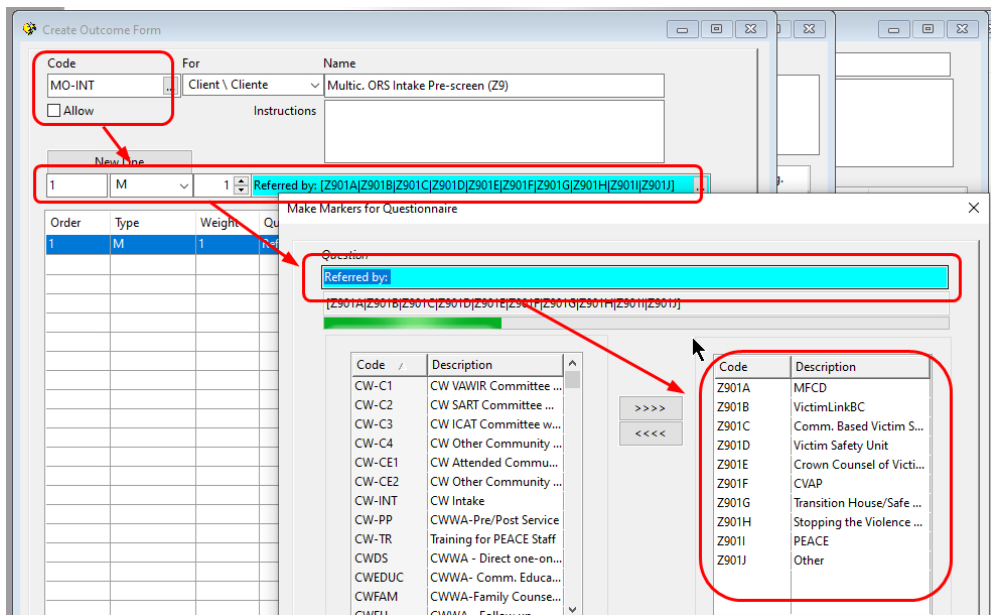

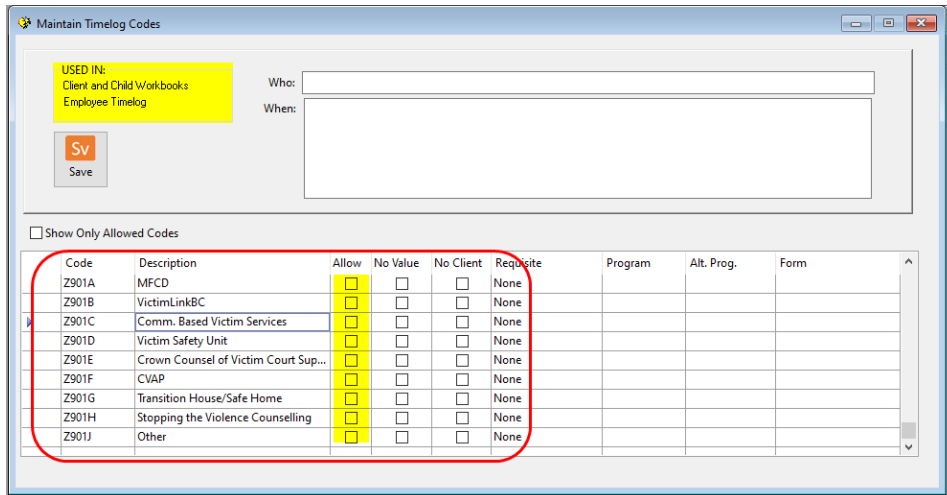

- **MO-DS**
 - To record additional types of service provided during a one-on-one session
 - This Form only has a single question
 - Set as a “Form” that is attached to the Time Log Code also coded “**MO-DS**”.
 - Choices coded as **ZA01A ~ ZA01H**
 - Notice that the “*Allow*” is NOT checked.

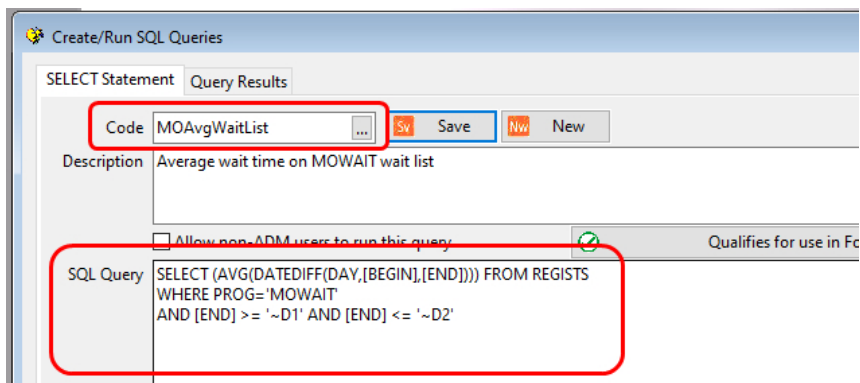

- **MO-INT**

- This Form is intended for use during the Intake Pre-screen and will gather information about the Referral Source. Because MPSSG is asking for statistics about Referral Source for ALL referrals to your service and just not the ones who end up coming into the program, it is imperative that EVERY Intake goes through the same pre-screen process.
- The Form is created and attached to the Time Log Code **MO-INT** in the same manner that you attached the **MO-DS** form.
- The Form has its “Allow” checkbox left unchecked because we want to force its usage only through the logging of the Time Log code to which it is attached.
- The Form only has a single question and its choices are coded as **Z901A ~ Z901J**

SQL Query

A new SQL Query was created to calculate the days a Client was on the waitlist

Formulas

In the Formula Builder, formulas were created to hook into and track the use of the Registered Program, Call Type, Time Log and SQL Query codes that were set up for this program. These are shown at the end of this document as Appendix D.

Community Based Victim Services Program

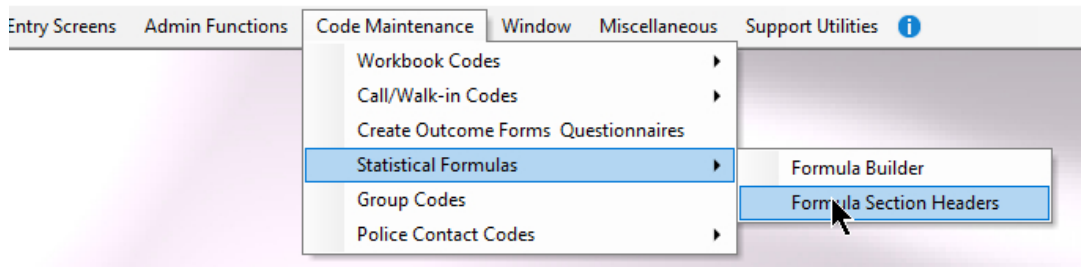

[added July 2021]

Prior to this point, we did not have this included in the set of B.C. Demo Data of **W.I.S.H.**™. So this seems like an optimal time to build a set of codes and formulas from scratch. The process of deciding what codes should be added when considering a new funder basically begins at the end of where you want to end up. In other words, what statistics do you want/(need) to report. Whenever I build a set of codes for a demo set of data, I normally just assume that the only stats I want are exactly what the funder requests – no more, no less.

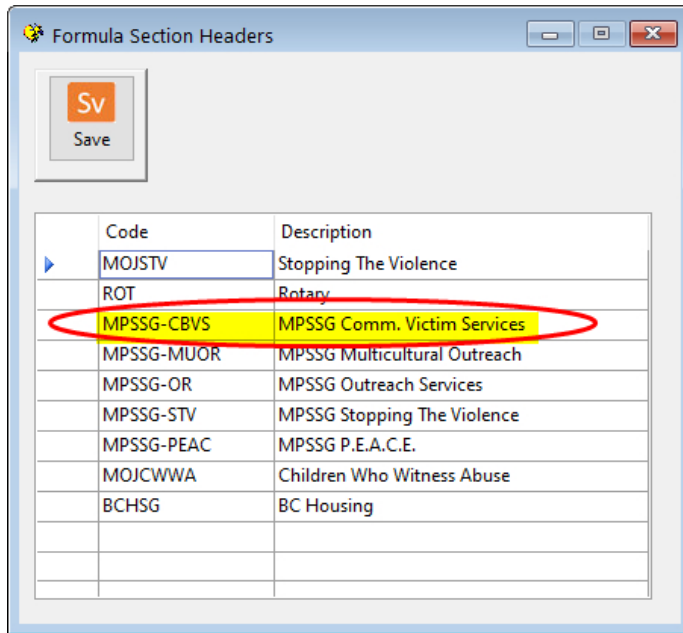

Once I identify the stats, I need to understand exactly what is being asked. Sometimes the definitions can be a bit vague and sometimes there be no definitions at all leaving you to rely on your own interpretations. The document that was shared with me from MPSSG did provide definitions and for the most part was pretty good. I found that in some cases either the definition was indeed a bit lacking or, because I am a “computer person” and don’t physically work as a counsellor in this funded service, I simply wasn’t sure and had to make some assumptions – likely correct, but it is always something to consider (i.e. did Mike understand this stat request properly).

[Creating a New Section Header](#)

Start by creating a new **Formula Section Header** for these statistics to be gathered under.

In that screen, I created a new Formula Section Header: **MPSSG-CBVS**.

Creating New Formulas

Create new blank formulas in the Formula Builder :

The next page shows the list of blank Formulas that I created in the B.C. Demo Data which will be later populated with formulas. (By the way, if you like this I have a utility that will import them all rather than you having to type them all in... get in touch with me if you want me to import these codes):

A-01	MPSSG-CBVS	Caseload Info: # of new clients
A-02	MPSSG-CBVS	Caseload Info: # of contacts made with clients
A-03	MPSSG-CBVS	Caseload Info: Active caseload
A-04	MPSSG-CBVS	Caseload Info: Kms travelled to provide services to clients
A-05	MPSSG-CBVS	Caseload Info: # of individuals on waitlist
A-06	MPSSG-CBVS	Caseload Info: Aver days clients served this mth on W-List
B-01	MPSSG-CBVS	Comm. Coord: Hrs in VAWIR Committee work
B-02	MPSSG-CBVS	Comm. Coord: Hrs spent on SART
B-03	MPSSG-CBVS	Comm. Coord: Hrs spent on ICAT
B-04	MPSSG-CBVS	Comm. Coord: Hrs spent on comm. coord. activities
B-05	MPSSG-CBVS	Comm. Coord: Anything else to highlight this mth.
B-06	MPSSG-CBVS	Comm. Coord.: Kms travelled for Comm. Coord. this month
C-01	MPSSG-CBVS	Comm. Engagemt: Hrs spent attending events
C-02	MPSSG-CBVS	Comm. Engagemt: Hrs spent providing info/pres/comm ed.

H-04	MPSSG-CBVS	Training: Anything to highlight?

Registered Program Codes

The first task is to identify who the “Client” is. In the case of this program funded by MPSSG, I made the assumption that Victim Services were provided to “adults” and thus would be expected to have a Client Workbook in **W.I.S.H.**™. When I look at the stats there are statistics that talk about “caseload” but also about “wait-lists”, therefore the model for Registered Programs would be very similar to that of the other MPSSG programs.

Two Registered Program Codes added:

- **VS** -Victim Services
- **VS-WL** -Victim Services Waitlist

Code	Description	Allow	Base	Ends	Duration	Intake Form (blank for none)	Discharge Form (blank for none)	Umbrella	Work Plan
CW-A	CWWA - Adult	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	0			None	
CW-C	CWWA - Child	<input checked="" type="checkbox"/>	Children ...	0 - USE DUR...	9999			None	
CW-WAIT	xxxx	<input type="checkbox"/>	Children ...	0 - USE DUR...	90			None	
CW-WL1	CWWA Waitlist-Children	<input checked="" type="checkbox"/>	Children ...	0 - USE DUR...	180			None	
CW-WL2	CWWA Waitlist-Moms	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	180			None	
MO	Multicultural ORS	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	9999			None	
MOWAIT	Multi-ORS Waitlist	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	180			None	
OR	Outreach Program	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	9999			None	
OR-C	Outreach-Children	<input type="checkbox"/>	Children ...	0 - USE DUR...	60			None	
ORWAIT	Outreach Waitlist	<input type="checkbox"/>	Adults / ...	0 - USE DUR...	180			None	
STV	Stopping The Violence	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	9999			None	
STV-WL	STV -Couns. Waitlist	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	60			None	
STV-WLG	STV -Group Waitlist	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	60			None	
TH	Transitional Housing	<input type="checkbox"/>	Adults / ...	03 - MAR/...	0			None	
VS	Victim Services	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	9999			None	
VS-WL	Victim Services -Waitlist	<input checked="" type="checkbox"/>	Adults / ...	0 - USE DUR...	60			None	

Notice that the “Ends” was set to **0-Use Duration**, and the “Duration” was set to **9999** for the **VS** program and less for the wait list.

Time Log Codes

Following the same model that was create for the other MPSSG programs, several new Time Log Codes were created:

- **VS-C1** -VAVIR Committee Work
- **VS-C2** -SART Committee Work
- **VS-C3** -ICAT Committee Work
- **VS-C4** -Other Committee Work
- **VS-CE1** -OR Attendance at Community Event

- **VS-CE2** -OR Other Community Engagement
- **VS-CE2** -OR Public Education
- **VS-DS1** -Direct one-on-one
 - Set Prerequisite to be in **VS** Program
 - Set “Form” to be **VS-DS** (this Form is set up later)
- **VS-DS2** -Court Accompaniment
 - Set Prerequisite to be in **VS** Program
 - Set “Form” to be **VS-DS** (this Form is set up later)
- **VS-INT** -Intake pre-screen
 - Set “Form” to be **OR-INT** (this Form is set up later)
- **VS-PRE** -Pre/Post Service
- **VS-TR** -OR Staff Training

Notice that All Codes are set to be “No Client” except for

- **VS-DS1,**
- **VS-DS2,**
- **VS-INT,** and
- **VS-PRE.**

Code	Description	Allow	No Value	No Client	Requisite	Program	Alt. Prog.	Form
STVPRE	STV- Pre/Post service	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None			
VS-C1	VS VAWIR Committee work	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
VS-C2	VS SART Committee work	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
VS-C3	VS ICAT Committee work	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
VS-C4	VS Other Comm. Coord. Activities	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
VS-CE1	VS Attendance at Community Event	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
VS-CE2	VS Other Community Engagement	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
VS-CE3	VS Public Education	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			
VS-DS1	VS -Direct Service	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Must be In Program	VS		VS-DS
VS-DS2	VS -Court Accompaniment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Must be In Program	VS		VS-DS
VS-INT	VS Intake Prescreen	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None			VS-INT
VS-PRE	VS Pre/Post Service	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None			
VS-TR	VS Staff Training	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None			

Call Type Code

The following Call Type Code was added to facilitate logging anonymous calls to inquire about the program

- **VS** -Inquiry about the VS program

The screenshot shows the 'Crisis Call Type Maintenance' window. At the top left, there is a 'Save' button with a 'Sv' icon and a yellow box labeled 'USED IN: Crisis Calls'. To the right, there are 'Who:' and 'When:' fields. The 'When:' field contains the text 'This is NOT a Referral to the TH.' Below these fields is a checkbox for 'Show Only Allowed Codes' which is checked. The main part of the window is a table with the following columns: Code, Description, Allow, Require Served, Require Ref Srce, Require Reason, Require Region, and Require Abuser. The 'VS' row is highlighted in yellow and circled in red.

Code	Description	Allow	Require Served	Require Ref Srce	Require Reason	Require Region	Require Abuser
REF	Ref. to TH	<input checked="" type="checkbox"/>	Do Not Allow	Mandatory	Mandatory	Do Not Allow	Do Not Allow

Group Code

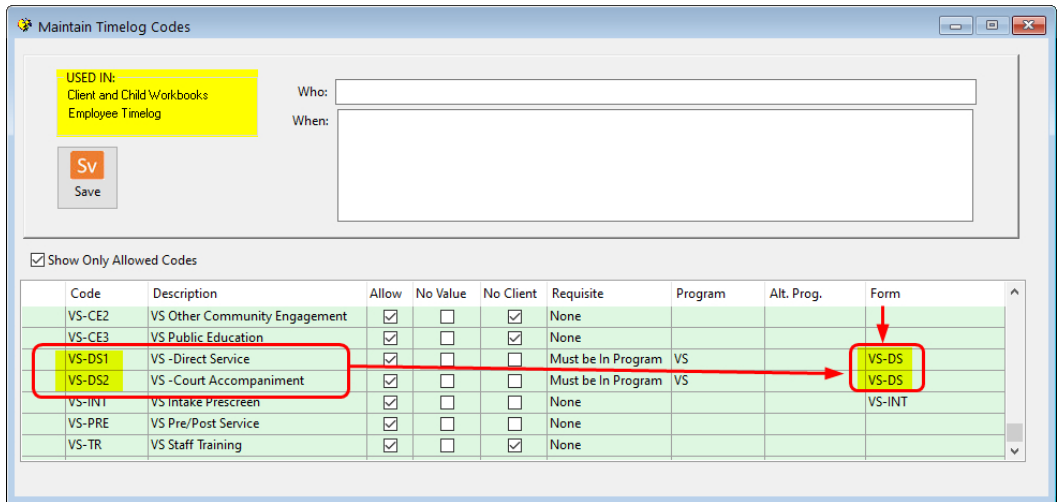

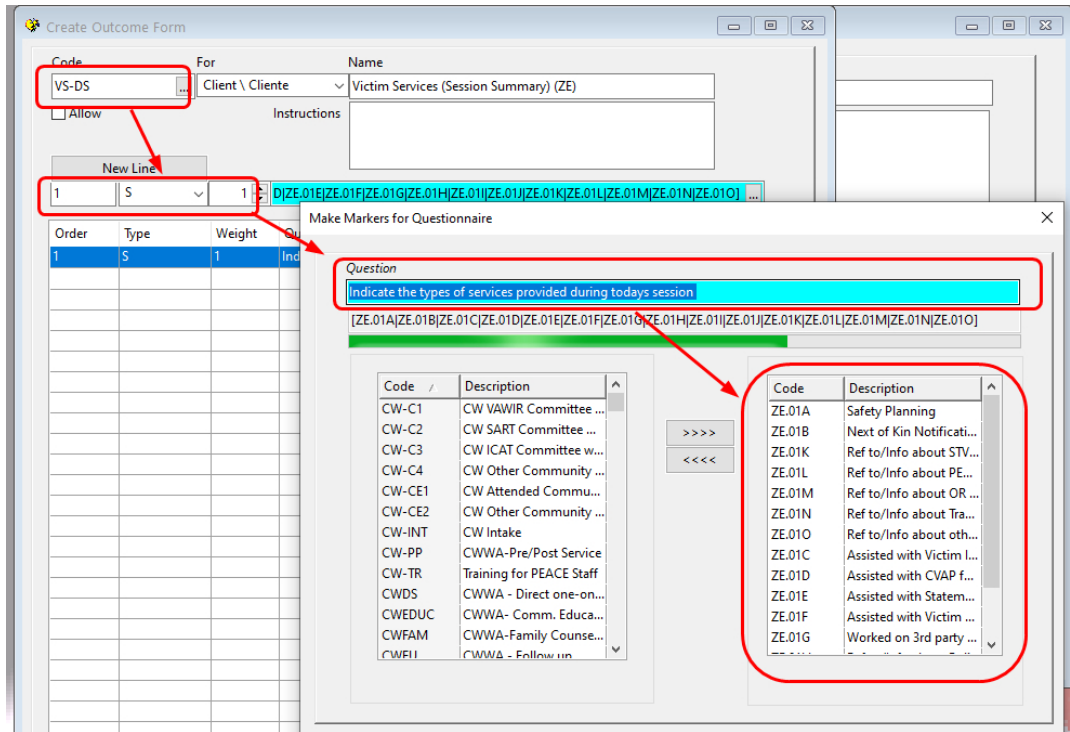

No Group Codes set up for the Victim Services program.

Forms

Very similar to the other MPSSG Programs, the Victim Services program will require 2 Forms

- **VS-DS**
 - To record additional types of service provided during a one-on-one session
 - This Form only has a single question
 - Set as a “Form” that is attached to the Time Log Codes “**VS-DS1**” and “**VS-DS2**”.
 - Choices coded as **ZE01A ~ ZE01O**
 - Notice that the “Allow” is NOT checked.

Code	Description	Allow	No Value	No Client	Requisite	Program	Alt. Prog.	Form
ZE.01A	Safety Planning	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None			
ZE.01B	Next of Kin Notifications	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None			
ZE.01C	Assisted with Victim Impact Statem...	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None			
ZE.01D	Assisted with CVAP forms	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None

ZE.01M	Ref to/Info about OR and Multicultu...	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None			
ZE.01N	Ref to/Info about Transition House /...	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None			
ZE.01O	Ref to/Info about other services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	None			

- **VS-INT**

- This Form is intended for use during the Intake Pre-screen and will gather information about the Referral Source. Because MPSSG is asking for statistics about Referral Source for ALL referrals to your service and just not the ones who end up coming into the program, it is imperative that EVERY Intake goes through the same pre-screen process.
- The Form is created and attached to the Time Log Code **VS-INT** in the same manner that you attached the **VS-DS** form.

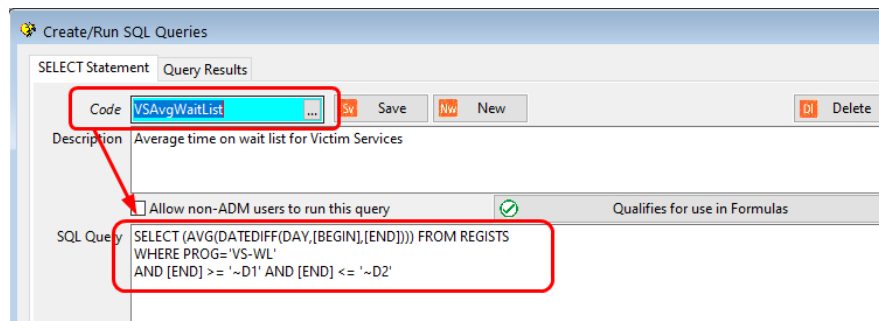

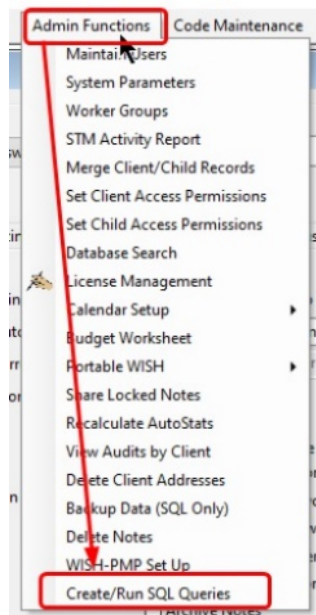

- The Form has its “Allow” checkbox left unchecked because we want to force its usage only through the logging of the Time Log code to which it is attached.
- The Form only has 2 questions and its choices are coded in the “Time Log Codes” screen as **ZD01A ~ ZD02L**

SQL Query

This is a bit of an advanced topic. A new stat that MPSSG is now asking is for the amount of time that clients were on the waitlist before they came off of the waitlist. The catch is that this includes people who were on the waitlist and decided to stop pursuing service and came off the waitlist without ever going into program. This little twist is important, because otherwise we could easily track it by using the “Referral Date” of every client coming into the OR program. Currently this specific stat can ONLY be accurately tracked in the SQL version of **W.I.S.H.**™ by creating an SQL Query. Here is the SQL Query that I created in the B.C. Demo Set of data for illustration purposes only (since the BC Demo Data is not stored in SQL):

Formulas

In the Formula Builder, formulas were created to hook into and track the use of the Registered Program, Call Type, Time Log and SQL Query codes that were set up for this program. These are shown at the end of this document as Appendix E.

Appendix A: STV Statistical Formulas Created
